THE EVENING NEWS

DEVOTED TO MAKING ADA A LARGER AND MORE PROGRESSIVE CITY

ADA IS AT PRESENT INVESTING several hundred thousand dollars in water works extension, sewerage construction, city hall erection, gas development, state normal college and what not.

VOLUME 6

ADA, OKLAHOMA. WEDNESDAY EVENING, AUGUST 11, 1909

NUMBER 115

EIGHTY PER CENT OF THE CASH TRADE JUST NOW IN ADA IS BY THE WAGE-EARNING PEOPLE WHO ALL READ THE EVENING NEWS EVERY DAY

LAW LEAGUE MAKES ITSELF FELT IN ADA

UNDER THE ABOVE CAPTION THE OKLAHOMA NEWS PUBLISHES THE FOLLOWING FROM ITS ADA CORRESPONDENT.

Ada, Okla., Aug. 9.—The law and order league has made itself felt in Ada. The organization, which is composed of the most conservative element in town, has been active in suppressing minor law violation and there is not a man, woman or child in Pontotoc county but who has seen the effect.

Ada merchants were undeniably worried over the undesirable way in which Ada recently sprang into the limelight of publicity through the unprecedented series of deaths, beginning with the assassination of Zeke Putman, marshal of Allen and ending with the murder of deputy sheriff Frank Hatcher—nine murders, representing the total.

Now it is different. The law and order league has filled the same mission that characterized the movement of the famous klu klux clan, in the reconstruction days of the south. It has done so in a quiet, thorough way, quite free of the spectacular and without the stigma of force. But the result has been the same.

The residents of this prosperous little county seat are indignant, and in some measure justly so, over the attitude of some sections of the state in what is called the "crime wave." Ada is a normal, law-abiding town. It has its rowdy element, to be sure, but the class of business men is as free from a taint of borderism as any in the world.

One of the first acts of the law and order league was the appointment of a committee to notify jailbirds to quit business. The warning had its fruits, too, and Ada today is a "cleaner" town than it has ever been.

A vigorous prosecution of the petty law breakers is also a part of the program for a "new regime."

Governor Pardons Four.

On recommendation of the State Board of Pardons Governor Haskell has issued pardons as follows:

Jasper Banks, theft of domestic animal, sentenced from Comanche county citizenship restored; Oliver Boyle, Tahlequah, theft, sentenced for thirty months, paroled; I. S. Jones, Washita county, simple assault, thirty days and \$50 fine, pardon; John Purdy, Pottawatomie county, larceny, citizenship restored.

The board of pardons took no action in the Aulderman case from Kay county, and has under advisement the cases of Scott Roop, sent from Kiowa county for manslaughter, and Oliver P. Jewell, sent from Woodward county for murder.

"We run a drug store and nothing more"

A TIMELY SUGGESTION

There are something like two hundred good salaried laboring citizens engaged on the numerous public and industrial works in progress in Ada at present, boarding at the numerous hotels and boarding houses.

That these men may get the habit, which is incurable, and that our advertisers may secure additional benefit through the columns of the News, it has been ordered that there be delivered at each hotel and boarding house in the city each evening a number of papers approximately equal to the number of its boarders and lodgers.

Therefore, the business public may know that the Evening News is read each day by practically every industrious and money earning citizen of the city.

Those business men who would place their goods and prices before those people whose trade represents 80 per cent. of the total Ada purchases between now and the fall season are advised to patronize the advertising columns of the evening News.

MUSKOGEE FARMERS SEEK HUMAN FIEND

Fifteen Years Old Girl Dies From Giving Birth to Twins and Neighbors Threaten Lynching—Neighbor of Friend to Shield Girl's Honor.

Muskogee, Okla., Aug. 11.—"Law! Hell, when we get him we'll string him up!"

That is the language of a prominent farmer living in the vicinity of Spaulding bridge five miles northwest of Muskogee, the man who is leading a band of his neighbors in a search for a man whose name they will not divulge, but whom they say they know is responsible for the death of Eva Newton, the fifteen years old wife of Perry Newton, a neighboring farmer.

Eva Hensley was an innocent, unsophisticated country girl of the "tom-boy" type, who loved to romp and play and do and dare. She fell, it is believed, under the gentle persuasion of the man who often drove out to her home from Muskogee.

The girl had a real friend in Perry Newton, an honest, old-fashioned farmer, 32 years of age. Suddenly, upon the 14th day of April, the girl and Newton were married. On July 12th, the girl gave birth to twins.

Ten days ago one of the infants died. The girl-wife died last Sunday.

The neighbors believe this Newton, in his friendship, made the sacrifice and married the girl to save her name. For a few hours Monday he himself was threatened and cries of lynching came from all sides. The story came out just in time to save his life.

The Hensleys came to Oklahoma two years ago from Alabama. They live near Bacone.

The Income Tax.

Arthur Brisbane, editor of the New York Journal, says in an editorial: "This newspaper and all of its allied newspapers throughout the country have worked for many years persistently for the income tax and will continue to work for that just tax. But the victory will be accomplished in the end by the great number of local newspaper editors writing daily in close touch with the people, influencing strongly the legislator, possessing the confidence of readers."

It is entirely natural for the country editors to be in favor of an income tax, because it don't reach them and yet cannot be classed as "taxation without representation."

NEGRO WARRANT IN OKLAHOMA CITY

IT IS SAID PRUETT AFRAID TO BRING HIM TO ADA FOR FEAR OF MOB.

The following taken from the Oklahoma News, it is thought does not do Moman Pruett justice, for while it is admitted that Moman may like the lime light just a little, he assuredly wouldn't try for it through an embarrassment to this city, which is in the loud acclaim to the governor and the press, that he is afraid of the Ada mob spirit.

Relatives of Geo. Warren, the Wynnewood negro charged with killing Frank Hatcher of Ada, a deputy sheriff, at a negro picnic recently, through attorney Moman Pruett have offered to surrender the slayer to the Pontotoc county authorities if a guarantee of protection from mob violence is given.

If Warren is given up, the demand is made that the preliminary hearing of the negro be held immediately upon his arrival at Ada and that he be hustled out of the county before nightfall.

Feeling is intense against the negro and his detention at Ada for a night would almost certainly bring on an attempt at lynching, it is believed.

WATER POWER TRUST.

Hon. Gifford Pinchot Boldly Declares at Spokane to the National Irrigation Congress that Even Water is Threatened With Contamination by "Combine Germ."

Spokane, Wash., Aug. 11.—The address of Hon. Gifford Pinchot, chief of United States forestry reserves, today before the National Irrigation Congress here, created a sensation, and what the chief declared to be true can hardly be doubted by those who are informed in the matter of mountain water sources, supply and demand for irrigation and power.

A spell of silence fell over the congress when Mr. Pinchot directly charged that there is a water power trust in process of formation.

"Not only this," said he, "but this water trust does not have any hesitancy about appearing before this congress in the persons of its attorneys and thus seek to break down the last remaining opposition to ownership of all power in the country."

"In fact," he continued, "I know one genial and urbane gentleman, who is here now helping the trust's cause. The time for protest is very short and the water power trust will show but little consideration to the common people if once the power of the country is centralized. In power there is life and the power trust will eventually control all other trusts."

Mr. Pinchot named one power corporation, which he charged is after the control of water power. He paid a tribute to the Roosevelt policies and brought another storm of cheers by saying that the Taft administration is irrevocably pledged to the support of those policies.

This policy is strictly for conservation of mountain forests for protection and increase of the water supply—a policy looking to the future as well as to the present, a policy against the greed of today for the welfare of the people tomorrow.

New Oil and Gas Co.

The state has granted permission to the Federal Oil and Gas Company, a million-dollar concern with main offices in Pittsburg, Pa., and Nowata, Ok., to do business in Oklahoma and to operate leases in the Nowata, Bartlesville and Hogshooter oil districts, which have a capacity of about 3,600 barrels daily. C. L. Kiskaddon, formerly of Pennsylvania, is to be superintendent of the Oklahoma property.

JUDGE CAMPBELL'S DECISION.

Not Only Settles a Vastly Important Question Affecting Our State's Progress, but Saves Government Expense and Is Benefit to Full-bloods.

Because it is based on right and equity, the decision of Judge Campbell in the Indian land title suits, has added vastly to the popularity of that already popular federal official. The decision stands for the best interests of both Indian and white—because it is right in equity. But there are other good features of the decision. It will save Uncle Sam an expense account of \$30,000 per year, to say nothing of court costs to both sides in the cases, in salaries and other expenses.

Of the force regularly employed for more than a year by the government on these suits there are three who draw \$3,000 per year each, twenty-five clerks and stenographers who draw \$13,000 annually, besides a host of outside men who work occasionally, but are not on the list of regulars. Added to this, have been constant trips of assistants to the attorney general from Washington who come down to lend counsel.

Under the decision the government is wasting this money, because it is not a party at interest and cannot appear as a plaintiff in its own name. But the decision is likely to reach much farther in this respect.

A large part of the work in the office of Commissioner J. George Wright is based on the assumption of the government that it has a guardianship right. This is denied by the court, and therefore, it is but natural to suppose that there will be a heavy dropping off in the work, with a corresponding decrease in the number of employees. The same is true in the Indian agency, but to a lesser degree. One of the most important points raised in this connection is whether the act of congress extending the restrictions over the full-blood Indians for a period of twenty-five years, after they had taken their allotments, is valid.

The Campbell decision will have the direct result of transferring from the federal to the state courts a vast amount of legal business.

Penitentiary Funds.

Guthrie, Okla., Aug. 11.—Reports made to the State Board of Affairs and the Board of Prison Control show there is remaining in the maintenance fund of the state penitentiary for the last fiscal year \$6,043.27 against which is pending about \$23,000 in claims. It is recommended by adjusters that \$3,118 of the amount be applied on the payroll and \$2,925.27 to McAlester firms on accounts. The remainder will be presented to the next legislature as a deficiency, with interest.

In the construction work convicts will be charged at the rate of 20c per day for maintenance. Warrants issued and claims pending against the construction fund amount to \$95,000.

LOCATION.

The East Central Normal School was established by an act of the Second Legislature in 1909, and was

located at Ada. The City of Ada, is the county seat of Pontotoc County, and is located at the intersection of the southwestern division of the St. Louis & San Francisco railroad with the Atoka-Oklahoma line of the M., K. & T., and the Oklahoma Central. With the building of the Frisco in 1900 the real history of the town begins, and from a frontier trading post of 180

inhabitants it has grown to be a city of more than 5,000 people, and is recognized today as one of the leading cities, commercially, educationally, and socially of the whole state. This locality is within the artesian water belt, and in addition to the adequate system of city waterworks, those who desire may, at a nominal cost, be supplied daily with an excellent quality of sulphur water from a flowing artesian well located near the center of the city. The sanitary sewer system is now being extended to all portions of the residence sections of the city, thus providing sanitary conditions so essential in a city charged with the care of a large educational institution.

BUILDINGS.

The act of the Legislature locating the East Central Normal School at Ada provides for an appropriation of \$100,000 for a building. A site has been selected by the Board of Regents, plans for the building have been adopted, and the work of construction will begin not later than Sept. 1. Until the Normal building is completed the school will occupy the new High school building of the City of Ada, which is now nearing completion, and will be ready for occupancy by the first of September. This building is a large two-story brick, with basement for heating furnace, and rooms for science laboratories and manual training.

The old Ada High school building, which is located in the same block with the new building, will be used by the Normal for a training school. These two buildings are well adapted to the work of the Normal and will be adequate to all present needs of the school.

PURPOSE OF THE SCHOOL.

The consciences of our forefathers, upon their awakening to the great democratic ideas of liberty,

equality before the law, and opportunity for all, knew that public intelligence is essential to the preservation of free institutions. Whatever is done by reason of instinct or of conscience is likely to be done without full knowledge of the real needs to be met and of the ways to meet them. When democracy decreed the free school for all children, it failed at first to discern that the school must be not only free but compulsory, not for children only, but for youth also. Democracy saw at first only the teacher in the class room with the children, and long failed to see the teacher in course of preparation, the teacher being assisted to reach all children, the teacher being wisely and well prepared and set to giving instruction in the most important matters. This is the field of work which the normal schools are designed to enter, and the importance of such institutions as a part of the public school system of any state is certain to increase in the coming years. In character, the normal school is in some respects a college and in others a professional training school, for it gives both academic instruction and pedagogical training.

A nation that can afford West Point and Annapolis for the preparation for the leaders in war sets a good example to the States. They may all well afford to prepare and maintain the exemplars of peace.

ADMISSION.

To be able to enter this school the pupil must give satisfactory evidence of a fair knowledge of reading, writing, arithmetic, grammar, geography, physiology, and history of the United States. Pupils are advised to secure from their former instructor a statement of the work they have done. This will save much trou-

the applicant may possess. Applicants for advanced standing for work done in other schools should be prepared to present to the Committee on Advanced Standing an official statement of such work. This statement should show the length of time spent in school, the number of subjects studied each term, the length of the recitation period, and the record of the grade of work done in each subject.

TIME FOR ENTERING.

For all reasons it is best to be present at the opening of the term, but pupils are admitted at any time. Persons entering several days or weeks late and attempting to carry the regular number of studies and make a full term's credit are usually crippled in their work throughout the term. Pupils entering after the opening of the term are limited to such number of studies as they can profitably carry.

THE PUPIL'S WELFARE.

The school management desires to say to parents who may send their sons and daughters to this institution that the school will have complete arrangements for looking after both the physical health and spiritual welfare of its pupils. There will be faculty committees whose duty it will be to look carefully after the health of the pupils and to see that everything possible is done for them in case of illness. These committees, for men and women, respectively, will keep in close touch with the student body and act promptly on all cases relating to the health of the pupils.

RELIGIOUS INFLUENCES.

The moral and spiritual environment of the school is very wholesome. All the leading evangelical churches have Sunday Schools and young people's societies throughout the year. The pastors and members of the churches will take a decided interest in the pupils, making them feel at home among them.

Religion cannot be taught in any of the public schools of the state, for to attempt to teach religion is to reduce it to theology, but fortunately for the interests of religion and for the public schools, religion is a life, not a system, is a natural expression of human nature, and not an artificial graft upon it; is a growth of the pupil's nature, not an acquisition of his intellect. Christianity, not creeds; citizenship, not partisanship, will be our aim.

MATRON.

To supplement the work of the committee charged with the care of the pupils and to care more particularly for the comfort and wellbeing of the young women, the institution employs a Matron, whose time is given to this work. Parents may rest absolutely secure in the knowledge that the Matron keeps in close touch with every young woman in the school and is careful to see that only proper places, under the best conditions, are selected as their homes. A list of desirable rooms and boarding places is kept on file in the office of the Matron, and the young women are expected to confer with her before making definite arrangements as to rooms.

Women will not be permitted to engage rooms where there are men rooming. In cases of seemingly justifiable exceptions to this rule, the matter should be referred to the Matron before definite arrangements are made.

Assistance will be given, as far as possible, to young women desiring to find work to pay part of their expenses.

Correspondence relating to the life and interests of the women of the school should be addressed to

EQUIPMENT

LABORATORIES.

The laboratories in Physics, Chemistry, Biology, and Agriculture will be equipped with the best apparatus which the market affords for the work in these departments.

LIBRARY AND READING ROOM.

In addition to a library of well selected books of reference and general reading, the different departments will be equipped with special reference works to which the pupils of the departments may have access.

The leading periodicals and magazines will be on file in the library.

LITERARY SOCIETIES.

Two literary societies will be organized and every pupil will be advised to become a member of one of the societies.

TRAINING SCHOOL.

Special attention is called to the advantages offered in the training school. The Normal will have complete control of one of the city schools of the city, which will occupy a building in the same block with the Normal. This school will be in charge of skillful, professionally trained teachers, and will be open to pupils for observation and practice.

By special arrangements with the city Board of Education we are in position to offer special inducements to a limited number of pupils who are able to take advanced standing in the Normal, and who will do as much as three hours practice work daily, under the direction of the critic teacher. For this service the Board will pay \$10 per month. The program will be so arranged that such pupils will be able to do full credit work with proper credit given for the practice work.

ATHLETICS.

Football, Baseball, Basketball, Tennis and other healthful sports will be encouraged. All practice, as well as match games, will be under the direction of a member of the faculty. No rough or boisterous conduct will be permitted in any game. No pupil, whose conduct and standing in his classes is not up to the standard, will be allowed to join any team.

TUITION.

Every department of instruction in this institution is open to every resident of the state without any charge.

BOARD AND ROOM.

Board and room may be secured in private families.
(Continued on Page Four.)

ble and many errors in classification. The common school diploma, granted by county superintendents, admits the holder without further test. Any one holding a teacher's certificate will be admitted and receive credit for work done as shown by the certificate.

ADVANCE STANDING.

Just credit will be given for all scholarship which

Board Members Re-elected.

Stillwater, Okla., Aug. 11.—The election was the principal feature of the afternoon's session of the State Agricultural Institute and followed reports of committee of the state board. President J. P. Connors this morning delivered his annual address and the annual report of Secretary C. F. Barrett was received.

Ewers White of McLoud, M. F. Ikard of Chickasha, and O. A. Brewer of Helena, were re-elected members of the state board of agriculture from the third, fourth and fifth districts respectively. Other candidates were E. J. Murphy, W. P. Risling, J. B. Tracy, John A. Murray, R. Clein and E. M. Tardy.

William H. Murray of Tishomingo delivered an address on secondary agricultural schools. He complimented the state on the progress made in agricultural affairs, particularly as relating to education. Prof. W. R. Robinson of Pawnee delivered an address on elementary country schools, and Senator Campbell Russell of Warner spoke on county demonstration farms.

The state board of agriculture will hold another business session when it is expected that selections will be made of the several secondary agricultural schools. Representatives of the several towns seeking these schools are here and the day promises to be fruitful of some interesting developments.

Films Developed and Pictures Finished Cheap at Ramsey's

"MR. NIGGER, DON'T STOP!"

Asa Harder, Red Oak Editor, Gets Himself Arrested by Federal Officers for Misuse of Mails.

Asa A. Harder, editor of the Red Oak Herald, is being held on a \$300 bond to await the action of the federal grand jury to answer to a charge of violating the postal law by sending through the mail an article "calculated to incite arson, murder or assassination."

No negroes are allowed to reside in Red Oak. Some from Wilburton tried to establish a habitat there. Harder referred to this in his paper, making use of language which the postal authorities claim is calculated to incite trouble. Harder referred to a previous attempt on the part of negroes to establish residence in Red Oak, saying: "They came very near getting into serious trouble with a rope and some of the friendly trees in this neck of the woods."

The objectionable article was headed: "Mr. Nigger, do not stop in Red Oak." Perhaps the expression most objectionable to the authorities was: "Let this be a warning to all niggers not to try to mix their undesirable mugs with Red Oak's people."

Red Oak is a village in the mountains of Latimer county, on the Rock Island road about forty miles east of McAlester.

Harder was formerly located in Atoka county at Caney where he published a small paper.

Open Game Season.

The first open season for game begins Aug. 15 and extends until the close of April next year. This is for snipe, plover, curlew, duck and other shore birds. The prairie chicken season opens Sept. 1 and continues through October. During November only buck deer with horns may be killed, the wild turkey season (except gobblers) is from Nov. 15 to Dec. 31, and the quail season also begins Nov. 15, but closes with the end of January. Wild turkey gobblers are protected during the entire year save between March 15 and April 15. The closed season for antelope is until June 11, 1914. Mongolian, Chinese English, ring neck or other pheasant, until Nov. 1, 1914.

The law places a bag limit for the season as follows: One buck deer, one swan, one turkey gobbler, 100 prairie chicken, but not more than fifteen in one day, quail or shore birds, twenty-five in a day or 150 in a season.

For licenses to hunt, residents' are charged \$1.25, nonresidents or aliens \$15, which is in no case transferable.

Colonel and Mrs. Hope Return.

Colonel and Mrs. Tom Hope returned last night from Wild-horse mountain streams over in the edge of the Kiamichis where they had joined the Faust, Hardin, Thompson fishing party for a few days. There are many fond reminiscences by the pioneer Ada folks associated with this wild virgin spot, the fact of which may be attested by A. K. Thornton of equally reminiscent "Ward McAlester" fame.

It was at this same place that a congenial bunch of Ada folks as the Wild-horse Fishing Club used to go season after season in the better days when commerce appeared not so cold.

The Hopes report that the Ada party are enjoying the outing thoroughly and capturing sufficient of the funny tribe for all requirements. The only reason restraining Mr. Hope from returning with a few antlers taken from the famous bucks of that region is supposedly on account of the game laws.

THE DETAIL COST OF PAVING TWELFTH STREET

Ada, Okla., July 29, 1909. To the Honorable Council of the City of Ada:

We are pleased to hand you herewith our report of the detailed cost of paving Twelfth Street from the West Side of Rennie to the East side of Stockton, each parcel of property fronting and abutting said street being levied with its proper amount of the cost as we find correct in our best judgment and in accordance with the laws regulating the costs of paving in cities of the first class.

L. T. WALTERS, Chairman. J. M. WINTERSMITH, Sec'y. C. M. CHAUNCEY.

(Seal) Sworn and subscribed to before me this 29th day of July, 1909. CHAS. A. POWERS, Notary Public. My commission expires Nov. 5, 1912.

Ada, Okla., July 24th, 1909. Organization meeting of the Committee appointed by the Honorable City Council of the City of Ada, Pontotoc Co., Oklahoma, for the purpose of apportioning the detailed cost to each parcel of property affected by the paving of Twelfth Street from the West side of Rennie Street to the East side of Stockton Street.

This Committee, appointed July 20th and composed of C. M. Chauncey, L. T. Walters and J. M. Wintersmith, met for the purpose of organization, on July 24th, at 10 o'clock A. M., in the office of L. T. Walters. L. T. Walters, acting as temporary chairman, called for nominations for permanent chairman; Mr. Chauncey nominated Mr. L. T. Walters, for permanent chairman, seconded by Mr. Wintersmith and there being no further nominations Mr. Walters was elected permanent chairman; Mr. Wintersmith was then elected secretary in regular routine.

Tuesday, July 27th, at 8:30 A. M. was selected and agreed upon as the appointed time for the committee to meet with the City Engineer and begin its duties as instructed by the City Council and in accordance with the laws appertaining to paving of streets in cities of the first class.

There being no further business the meeting was adjourned until Tuesday July 27th at 8:30 A. M.

L. T. WALTERS, Chairman. J. M. WINTERSMITH, Sec'y. C. M. CHAUNCEY.

In these sizzling times of peace
there is a heap of solace in the red
and juicy watermelon, of which we
have a bounteous crop.

It always has been, is now and for-
ever shall be true that we will have
law enforcement up to the level of
public sentiment—and no higher.

Ada is famed throughout the state
for her beauty and progressive spirit,
but just now we have a luxuriant crop
of weeds coming to maturity and the
crop ought to be saved. Begin the
harvest now.

Gifford Pinchot says there is a wa-
ter trust in process of formation. This
trust is designed to operate in the
far western mountain region. There
has been one operating in Wall street
for some time past.

The Muskogee Phoenix editor has
had a "greater and deeper Arkansas"
on his mind so long that he is con-
strained to remark: "The next thing
will be agitation for unobstructed
deep aeroplaneways."

Down in Ardmore, that well known
summer resort, the "Old Nestors
Club" has petitioned the city council
to furnish dry-goods boxes and bar-
low knives for the accommodation of
their daily meetings on "watermelon
corner," according to Sidney Suggs.

"If Bryan came to Texas" is the
caption of a long-winded effort of the
Houston Post. Now Taft is really go-
ing to Texas and if the Post will
keep its ear to the ground it may
feel the earth tremble, with no "ifs"
about it.

We noticed a big scare head in a
city newspaper the other day which
read: **Big Steal in Wall Street!** Just
as if the occurrence was so rare
as to be sensational. Might as well
make a scare head to read: "Plen-
ty of Water in the Ocean."

A Beverly dispatch says that Pres-
ident Taft has canceled the city of
Madison, Wisconsin, the home of Sen-
ator La Follette, from his September
itinerary. This puts LaFollette in the

S. M. SHAW, PROP.

class with Oklahoma. He will now
have our sympathy as well as our
admiration.

Those hills and valleys at the in-
tersection of some of the principal
streets are hardly large enough to
be considered fine scenery, but if the
fire department should have to make
a swift run over them it might scat-
ter things around a whole lot. It's a
job for the street fixer.

Along with this "moral clean-up"
wave let's have a little attention to
weeds, chuck-holes and various and
sundry unsightly places in the city. A
clean and slightly exterior makes for
good morals.

Even the Guthrie ball team has for-
feited two games by playing "quitter"
instead of ball.

One government reform now pro-
posed is to wash national bank notes
and thus wage a war on germs. All
"tainted money" will thus be puri-
fied for use by colleges and missionar-
ies—except that of Standard Oil
which is already purified by the kero-
sene process.

West Texas towns are submitting
sealed bids for the location of the
West Texas State Normal. It is known
that some towns are offering as high
as \$100,000 in cash. This fact helps
us to appreciate the prize we secur-
ed for Ada in the East Central Nor-
mal for Oklahoma. It is a high privi-
lege to be the home of a state school.
It is a public duty to maintain a civic
standing commensurate with that
honor.

JUDGE CAMPBELL'S RULING.

A false impression has been quite
generally created relative to the real
reasons for and the import of Fed-
eral Judge Campbell's recent ruling
relative to Indian lands and titles.
This impression ought to be correct-
ed by the press of the state, particu-
larly that of the Eastern portion
where the ruling will have direct ef-
fect.

Briefly stated, the ruling has the
effect of clearing the status of the
inherited lands of Indians, or "dead
claims." These inherited lands have
been bought during several years
past in all good faith and confidence.
The belief and understanding was
that restrictions rested against the
Indian rather than against his lands,
and that with the death of the In-
dian the restrictions on his lands
were removed so that his heirs had
a perfect right to sell such lands
and give a good title. In fact such
a court decision was made about two
years ago.

Federal officers assumed, how-
ever, that the Indians of the Five
Tribes were still wards of the Gov-
ernment in spite of the fact that they
had all been made citizens of the
United States. Therefore they con-
tended that they must control in the
matter of the selling of inherited
lands. On the other hand, the con-
tention was that such land sales were
matters for the jurisdiction of the
local county probate courts.

Judge Campbell's decision clears
this point. He rules that these In-
dians are not wards of Government,
and that they have a right to sell in-
herited lands. This ruling is in ac-
cord with the previous ruling above
referred to. It renders valid all sales
of inherited lands heretofore approv-
ed and places all present and future

cases of this nature with the local
probate courts.

The decision merely settles a
mooted question and is not, as some
have been led to suppose, anything
revolutionary. It is a just ruling and
one that benefits both Indian and
white.

"BELSHAZZAR'S FEAST."

Senator Gore Predicts a "Perfect
Frenzy of High Prices" as Re-
sult of the New Tariff
Measure.

Kansas City, Mo., Aug. 11.—Senator
Thomas P. Gore of Oklahoma was
in this city yesterday on his way from
Northwestern Texas to Iowa.

"It was Belshazzar's feast," Sena-
tor Gore said, referring to the recent
Washington dinner to commemorate
the passage of the tariff bill.

"The real guests of honor were
absent. The handwriting of the peo-
ple was on the wall if they had only
had the prescience to observe it.

"The passage of the tariff bill is
going to be followed by a perfect
frenzy of high prices. But the people
can wait and see. The real test will
come in its operation. If the cost
of living is reduced, then I shall be
ready to confess cheerfully that my
vote against it was a mistake. If the
cost of living is not reduced, then
the republicans should nominate some
progressive for president—some man
like Bristow, or Cummins or LaFollet-
te. I believe a democrat has some
choice even among the republicans
because if the candidate is elected,
he is my president and the country's
president.

CAPTAIN CATES

SAYS ATTEND

CONFEDERATE REUNION

Notice to W. L. Byrd Camp 1545
and all Confederate soldiers that can
possibly attend the State Reunion at
Chickasha August 25, 26, 27, are re-
quested to be present; business of im-
portance to look after. A circular
letter was sent out from headquar-
ters by our General Wm. Cross urging
all comrades to be at the reunion,
also we want a sponsor for our camp
to represent us at the reunion. Would
be pleased for some of the daughters
to assist us in securing a sponsor for
the above reunion. J. C. CATES,
Com. of W. L. Byrd Camp.

Paving Resolution No. 6.

State of Oklahoma,
County of Pontotoc, SS.

City of Ada.

Whereas, resolutions have been
passed to pave twelfth street from
Rennie Avenue to Stockton Avenue,
and also resolution has been passed
appointing appraisers, and said ap-
praisers having been appointed, and
said appraisers having made their re-
port, therefore,

Be it resolved by the Mayor and
the Councilmen of the City of Ada,
Oklahoma, in regular session assem-
bled,

That the Mayor and Councilmen
shall meet on the 23rd day of Aug-
ust at 1:30 P. M. at the City Hall
in the City of Ada, Oklahoma, for
the purpose of hearing complaints
of said property owners, as ordered
by law.

Passed and approved this 9th
day of August, A. D., 1909.

F. C. SIMS, Acting Mayor.

Attest: W. B. Jones, City Clerk.

LAW AND ORDER LEAGUE FORMED

MASS MEETING OF CITIZENS
HELD AT COURT HOUSE—PUB-
LIC SENTIMENT SHOWS DE-
TERMINATION FOR LAW EN-
FORCEMENT.

Many Brilliant and Forceful Short
Talks Made by Leading Citizens,
Attorney Wimlish by Characteristic
Story Illustrates the Situation.

There was a fair and substantial
audience in attendance at the law
and order enforcement meeting held
at the court house last night.

The program as published in
Tuesday's News was carried out in
detail. Col. George Thompson open-
ed with an impressive address and
called forward the chairman and sec-
retary selected to preside over and
record the action of the meeting.

Prof. Briles, president of the nor-
mal was introduced and for twenty
minutes held the most complete at-
tention of all present. Probably
there has never been a more ef-
fective talk addressed to any audi-
ence assembled in the city. While the
circumstances and purposes of the
meeting and the fact that he is the
head of the state normal located at
Ada directed the close attention of
all present and awarded a respect
and receptiveness for his utter-
ances; even beyond that, the finish-
ed good sense of this scholarly gen-
tleman, who though discreet is of
most positive character, appeared to
kindle within the feelings of those
present the utmost appreciation of
his remarks. In a subsequent issue
the News shall try to publish the
general outline of his remarks.

The address of Dr. Wilson of the
First Methodist church, South, was
sublimely by a series of comparisons
and illustrations, he painted the
iniquity of the law breaker and

drove to shame any idea that it was
not the emphatic duty of the private
citizen to help ferret out the viola-
tor of the law and bring him to
justice.

Senator Roddie in sincere manner
and direct, but ornate, phraseology
went to the gist of the fundamental
propositions under consideration. He
read the law, especially emphasizing
those points, which were in the par-
ticular view of the originators and
conductors of the law enforcement
league. He showed his two princi-
pal reliances on law enforcement
against the blind tigers and joints,
was first to go after the landlord
who rented the property through the
assessment of heavy fines and next
to have all such places closed
through affidavit that they were nu-
isances.

The closing words of Senator Rod-
die appeared to thrill the audience
for there ensued tumultuous ap-
plause. Said he, in substance after
he had given warning that evidence
had already been gathered, "You
landlords have got to clear your
buildings of these illicit businesses.
Tomorrow is your last day."

Hon. Bob Wimlish, county attor-
ney had assigned him what was
understood to be hazardous and puz-
zling subject, "The officers." Being
one of these heroes who can't be
"fazed," Judge Wimlish, responded
cheerfully. He told the funny story
of Jim Pullin of Georgia and under
admirable illustration applied it to
himself. He read certain sections
from the status which afforded au-
thority beyond question to the coun-
ty attorney to clean out the booze,
joints at, almost, one "fell sweep."
Then he read Judge Doyle's supreme
court decision in which Judges Fur-
man and Baker were particeps crim-
ines, which practically abrogated the
law of enforcement as far as the
county attorney is concerned.

Mr. Wimlish referred to the un-
fortunate number of killings in the
county since last November and the
demands on his time and energy on
such account. He assured the people

that he bade them God-speed in their
efforts to clean the town.

The News is anxious to publish the
Hon. Bob's speech in full and shall
pretty near—if it can get some one
to write out his "Jim Pullin" Geor-
gia story, who knows how, for this
story was very german to the
speech.

When the published program had
been concluded and it looked as if the
meeting was through, Hon. Edgar
Radliff, who has the engaging habit
of speaking at the opportune time,
when there is some inquiry perti-
nent to the occasion, arose and with
a few pre- and anti-ludes, evidently
for politeness sake, asked, what are
we here for, why all this talk. Let's
"do and dare." organize a law en-
forcement league and work at it ev-
ery day until the job is done. When
a motion had been adopted approv-
ing the work performed by Col. Geo.
Thompson, Senator Roddie and oth-
ers, there was resolved to organize
a Law and Order Enforcement League
which was forthwith done.

Hon. W. S. Kerr was elected presi-
dent and (Hon. Byron Norrell, secre-
tary. Mr. Kerr accepted the presi-
dency of the society with some very
strong and impressive utterances.
The president is busily engaged to-
day making up his committees. Those
named to date are:

Executive Committee—R. M. Rod-
die, Geo. Thompson, W. H. Braley,
G. V. West, J. W. Beard.

Advisory Committee—Robt. Wim-
lish, Prof. Briles, O. B. Weaver, E.
S. Ratliff, E. W. Hardin.

Old Suit Dismissed.

Muskogee, Okla., Aug. 11.—Attor-
ney General Wickersham has in-
structed United States Attorney
Gregg to dismiss the suit brought in
1906 by Secretary of the Interior
Hitchcock against Mansfield, McMur-
ray and Corbiss of McAlester for the
recovery of \$40,000 expenses allowed
by the Choctaw and Chickasaw legis-
latures for legal services.

Hitchcock based his suit on the
fact that the acts of the two legis-
latures granting these payments were
illegal, not having been approved by
the president. Wickersham decided the
president's approval was unnecessary
and has ordered a dismissal of the
suit.

This same firm, it will be remem-
bered, at one time drew a fee of
\$750,000 from the Choctaw and Chick-
asaw tribes.
